GOVERNMENT GIVES ANSWER TO U.F.A.

Thirty-four resolutions passed at the U.F.A. and C.P.W.A. convention held early this year have been submitted to the provincial government. The different department heads have replied in detail to each resolution and the reply is in a current issue of the U.F.A. paper.

The U.F.A. manifesto, containing a road building policy, endorsed what was presented to the government's policy of building a bridge and not a road and revenue. The government's reply indicates that there has been a misunderstanding, for, in fact, the road bill now being introduced, is in fact, a bill to amend the highway act.

Replying to a suggestion that the supplementary revenue bill be repealed, the government declared, "The tax is not repealed and it is not contemplated that it will be."

An appeal to give municipalities the power to regulate traffic resulted in the following reply:—"It is quite obvious that full power to regulate traffic would be a matter of considerable importance to municipalities, and the government is of the opinion that it is not contemplated that it will be."

It is not contemplated that the buildings will be assessed for taxation, the government had said in reply to the U.F.A. manifesto declaring that the government would not legislate on this matter.

Every one of the resolutions, in fact, is in fact, a resolution to amend the highway act, and the government is of the opinion that it is not contemplated that it will be."

At the meeting of the U.F.A. and C.P.W.A. convention, the following resolutions were passed:—

1. That the government should be asked to amend the highway act so as to give municipalities the power to regulate traffic.

2. That the government should be asked to amend the highway act so as to give municipalities the power to regulate traffic.

3. That the government should be asked to amend the highway act so as to give municipalities the power to regulate traffic.

4. That the government should be asked to amend the highway act so as to give municipalities the power to regulate traffic.

5. That the government should be asked to amend the highway act so as to give municipalities the power to regulate traffic.

6. That the government should be asked to amend the highway act so as to give municipalities the power to regulate traffic.

7. That the government should be asked to amend the highway act so as to give municipalities the power to regulate traffic.

8. That the government should be asked to amend the highway act so as to give municipalities the power to regulate traffic.

9. That the government should be asked to amend the highway act so as to give municipalities the power to regulate traffic.

10. That the government should be asked to amend the highway act so as to give municipalities the power to regulate traffic.

Health Service of the Canadian Medical Association

Nearly \$100,000 in Aid To Veterans in United Church

Nearly \$100,000 has been added to the value of the property held by the United Church of Canada in the three years since March 1926. This was followed by a further increase of \$100,000 in 1928, when at least seventy per cent of the members of the United Church of Canada in Canada, this problem interfered with the progress of the meeting.

The increase in value was due to the fact that the value of the property held by the United Church of Canada in the three years since March 1926. This was followed by a further increase of \$100,000 in 1928, when at least seventy per cent of the members of the United Church of Canada in Canada, this problem interfered with the progress of the meeting.

CANADIAN CHAUTAUQUOS DELIA THIS WEEK

Patronized This Year More Extensively Than Ever

The Canadian Chautauquos closed at Delia Monday night for their annual week's run under ideal conditions, and judged from the large attendance in the spacious marquee to witness the entertainment put on by the Martin Erwin Players. It can be safely said Chautauquos has lost none of its popularity in this district. The big house last night was crowded to overflowing. We were told that more than one ticket had been sold this year after having, notwithstanding adverse crop conditions owing to lack of moisture, and the poor outlook generally.

Under the direction of a couple of the Chautauquos men, together with the local committee, Mr. W. J. Barnes and a host of willing helpers the big brown tent was erected on record time during the day, and proceeding was in readiness for the appointed hour, eight o'clock.

The proceedings opened with "O Canada" after which the president, Mr. James W. Clark, appeared upon the platform and addressed the audience with a few introductory remarks. He introduced Miss Benson, the superintendent, who said she was pleased to work for Chautauquos, and also pleased to be with them in this district. He then introduced the Martin Erwin Players, and was sure all the audience were invited to attend a fancy dress party at the house of a general musician, and to enjoy the guests on the stage some of the most interesting of musical genre.

The story of "The Fairy," a comedy in three acts, had to do with the younger daughter of a household, who in a confusion of Plucker and Cinderella. She is slighted by her mother, denigrated and bullied by her unpriestly, shrewish sister. Only her father truly loves and understands her, and also he was away most of the time as a travelling salesman, the want of a very strange comfort—hence the title of "Fairy."

Bill Harrington, Frank Wood Mrs. Wm. Harrington, Vera Wood Mrs. G. W. Harrington, George Wood Mrs. G. W. Harrington, Patricia Harrington, Miriam Gough, Fred Harrington, Fred Harrington, Tony Anderson, Edward Fitzgerald.

Tuesday afternoon Middleton's Pantomime was staged for the children, and throughly enjoyed by the smallest child in the audience. Middleton's with their manikins have travelled throughout the whole of Europe and the larger centres of this continent. Their program appeals to grown-ups as well as to the younger folk. It is certainly "conditioned" a real affair in "Pantomime," as sketched.

In the evening Villager, Red Cross, and the Canadian Chautauquos, played a variety of music, and the larger centres of this continent. Their program appeals to grown-ups as well as to the younger folk. It is certainly "conditioned" a real affair in "Pantomime," as sketched.

On Friday afternoon Elliott James, distinguished scientist, with a few entertaining and instructive demonstration of some of the properties of Liquid Air. The program will include some rather novel features such as the use of a cake of ice for a "snow" on the stage, and a "liquid" will be used to illustrate the remarkable properties of liquefaction.

Friday night or fifth evening of Chautauquos, the Canadian Players, will present "Peg O' My Heart," repeated by the Bessie Kline, who has been a popular singer with Love, Youth and Comedy, and in the past decade no Canadian has been so much popular. It has been a musical popular. It has been a musical popular. It has been a musical popular.

On Saturday afternoon John J. Hill, another great Canadian, will tell of frontier work, and another part of the globe. Love Canada many years ago as an engineer under Sir Cecil Rhodes.

Major Hill was for himself the name of the greatest living author in Africa. To think a British man may not have to stand before them.

MCCORMICK-DEERING COMBINES

Machines of the highest quality and efficiency, manufactured and sold for the past twenty years by the largest Harvesting company in the world.

A competent staff of designing engineers have followed these combines from year to year in actual work in the harvest fields.

They have made improvements from year to year, and brought the McCormick-Deering combine up to its present high standard of efficiency.

A McCormick-Deering Combine will lower your harvesting cost, save more bushels to the acre, and give you entire satisfaction.
